NEOGEN

Petrifilm®

Neogen Food Safety Lab Automation

Fixed Artificial Intelligence (AI) developed using a wide assortment of food types

Turn results into insights with automated reporting and user-friendly software.*

Results in

6

seconds or less

Productivity Advanced

Neogen® Petrifilm® Plate Reader Advanced

There's no slowing down with automated plate enumeration and advanced reporting capabilities of the Petrifilm Plate Reader Advanced. It can help you save time, improve productivity and capacity.

It's time — upgrade to advanced testing at **info.neogen.com/petrifilm**

*Computer not included.

Advancing the efficiency of food safety

Automate the imaging, enumeration and storage of results of Petrifilm Plate tests.

Productive

- Improve laboratory efficiency in a space saving design
- **Plate enumeration in 6 seconds or less**

Proficient

- Standardized technology and easy to use software
- **Accurate colony counting**

Proactive

- Software stores results and offers data analytics
- **Automated reports and data trending for actionable insights**

For more details on colony counting accuracy, read the comparison technical bulletin.[1]
